EXPERIENCE

Full Stack Developer
Agami Technologies Pvt. Ltd.

Dec 2022 – Present
Noida, IN

- Serving as a key contributor to the development of **Stikkum**, a high-impact project focused on the US mortgage industry, with responsibilities that include implementing both front-end and back-end solutions to streamline mortgage processes and enhance the user experience.
- I actively contribute to **BeGenieUs**, a real-time chat platform, handling chat functionality, web page creation, and AI technology integration for enhanced user engagement and support.
- Contributed to the **Nediaz** with an end-to-end chat system, enhancing real-time communication for job seekers across various job-related requirements such as listings, partnerships, and corporate needs.
- Incorporating third-party APIs and services to enhance project functionality and expand its range of capabilities.

Offline Dialer
Teleperformance

May 2019 – Oct 2019
Jaipur, IN

- Employed at Teleperformance with a focus on supporting Flipkart, one of India's leading e-commerce companies.
- Served as a crucial member of the backend team, responsible for handling distressed Flipkart customers.

TECHNICAL SKILLS

Frontend Technologies:	React.js, Vue.js, jQuery, Ajax
Backend Technologies:	Spring Boot, Node.js, Express.js
Programming Languages:	C, Java, JavaScript
Databases & ORM:	MySQL, MongoDB, Hibernate, Sequelize ORM
DevOps & Tools:	AWS, Git, MicroServices, Docker, Linux, SendGrid, Zapier

PROJECTS

AgroCare | *Spring Boot, React.js, Hibernate, MySQL, Ant Design* [Link]

- Developed a web application to help farmers easily handle irrigation, keep track of inventory, and deal with pests without making mistakes during farming.
- Created user-friendly interfaces with React.js for seamless product management and user interactions, ensuring responsiveness across devices.
- Developed RESTful APIs with Spring Boot to efficiently manage user data and authentication requests.
- Used MySQL along with Hibernate to store and organize product details and user information in our database.
- Integrated **Spring Security** and **JWT** for authentication and authorization, ensuring strong data protection

SmartContectManager | *Spring Boot, Thymeleaf, Hibernate, jQuery, MySQL* [Link]

- Crafted user-friendly website features to organize contact details such as emails and images, simplifying usability.
- This website is built using a monolithic architecture with Thymeleaf and includes Spring Security with password encoding for improved user security.
- Integrated a premium membership module with **Razorpay** to offer users the option for premium services.
- Secured user data and privacy by implementing OTP-based email authentication.

WebTech | *Advance Java, JavaScript, jQuery, Bootstrap, SweetAlert, MySQL, Apache Tomcat* [Link]

- Developed a dynamic content-sharing platform focusing on computer programming topics.
- Implemented seamless social interaction with a Facebook plugin, enabling users to easily like, comment, and share posts, thereby enhancing engagement within the platform.
